INDEPENDENT AUDITOR'S REPORT

To the Board of Directors
Global Health Council, Inc.
Alexandria, Virginia

We have audited the accompanying financial statements of the Global Health Council, Inc. (the Council), which comprise the statement of financial position as of December 31, 2013, and the related statements of activities and change in net assets, functional expenses and cash flows for the year then ended, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of the Council as of December 31, 2013, and the change in its net assets and its cash flows for the year then ended, in accordance with accounting principles generally accepted in the United States of America.

GLOBAL HEALTH COUNCIL, INC.

**NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2013**

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES AND GENERAL INFORMATION

Organization -

The Global Health Council, Inc. (the Council) was incorporated in 1975 as a non-profit organization. It is dedicated to saving lives by improving health throughout the world. The Council works to ensure that all who strive for improvement and equity in global health have the information and resources they need to succeed. To achieve this goal, the Council serves as the voice for action on global health issues, by mobilizing an informed citizenry both locally and globally, advocating and educating decision-makers on global health issues, and making the case for global health through media outreach. As the voice for progress in the global health field, the Council disseminates global health information, shares knowledge through events and conferences, and puts research to work by compiling, analyzing, summarizing and disseminating research on illness prevention and intervention.

Basis of presentation -

The accompanying financial statements are presented on the accrual basis of accounting, and in accordance with FASB ASC 958, *Not-for-Profit Entities*.

Cash and cash equivalents -

The Council considers all cash and other highly liquid investments with initial maturities of three months or less to be cash equivalents.

At times during the year, the Council maintains cash balances at financial institutions in excess of the Federal Deposit Insurance Corporation (FDIC) limits. Management believes the risk in these situations to be minimal.

Grants -

Grants are recorded as revenue in the year notification is received from the donor. Grants are recognized as unrestricted support only to the extent of actual expenses incurred in compliance with the donor-imposed restrictions and satisfaction of time restrictions. Grants received in excess of expenses incurred are shown as temporarily restricted net assets in the accompanying financial statements.

Income taxes -

The Council is exempt from Federal income taxes under Section 501(c)(3) of the Internal Revenue Code. Accordingly, no provision for income taxes has been made in the accompanying financial statements. The Council is not a private foundation.

Uncertain tax positions -

For the year ended December 31, 2013, the Council has documented its consideration of FASB ASC 740-10, *Income Taxes*, that provides guidance for reporting uncertainty in income taxes and has determined that no material uncertain tax positions qualify for either recognition or disclosure in the financial statements.

The Federal Form 990, *Return of Organization Exempt from Income Tax*, is subject to examination by the Internal Revenue Service, generally for three years after it is filed.

Net asset classification -

Unrestricted net assets include unrestricted revenue and contributions received without donor-imposed restrictions. These net assets are available for the general operation of the Council.

GLOBAL HEALTH COUNCIL, INC.

**NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2013**

**1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES AND GENERAL INFORMATION
(Continued)**

Membership -

Membership dues are recorded as income when received from both organizational members and individuals.

Use of estimates -

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities at the date of the financial statements and the reported amounts of revenue and expenses during the reporting period. Accordingly, actual results could differ from those estimates.

Functional allocation of expenses -

The costs of providing the various programs and other activities have been summarized on a functional basis in the Statement of Activities and Change in Net Assets. Accordingly, certain costs have been allocated among the programs and supporting services benefited.

2. GOING CONCERN

The Council has experienced recurring negative changes in net assets (operating losses). During the year ended December 31, 2013, the Council recorded an operating loss of \$94,408. The ability of the Council to continue as a going concern is dependent on the success of the Council's operation plan to raise unrestricted funding during the coming fiscal years, as well as maintain a continued effort to decrease budgeting expenditures.

In response to its financial condition, prior to December 31, 2012, the Council sold assets and terminated leases and other obligations. The Council then established a new Board of Directors in late 2012, which adopted a new operating model that included a funding plan with 3-year pledges of support from key donor organizations to help ensure the Council's future. Additionally, the Council hired another not-for-profit organization to provide secretariat services, so that it could establish new operations at a minimal expense.

3. SUBSEQUENT EVENTS

In preparing these financial statements, the Council has evaluated events and transactions for potential recognition or disclosure through October 24, 2014, the date the financial statements were issued.
